Harvest Time Homeschool Umbrella Program
High School Credit Acceptance Form

The purpose of this form is to report credits earned at home for enrollment into our Homeschool Umbrella Program. All students entering our program in grades above ninth should utilize this form. Students who have earned high school credits while in eighth grade or below should also include this form with enrollment.

All course titles should be specific. Do not use generalized terms such as: Math, Science, Social Studies, and so on. Specific course titles include: Algebra 1, Biology 1, American History, English 1, American Literature, Computer 1, and so on. The number of hours spent studying academic course material is not as important as the assimilation and mastery of course content, which is demonstrated by comprehensive testing. However, in nonacademic courses (P.E., piano, drawing, OJT, and so on) the student should complete 60-75 hours for one-half credit and 120-150 hours for one credit

Please complete a separate page for each grade.
Attach to this form all standardized test scores of homeschool evaluations.

Student's Name: _____

Grade: _____ Days Attended: _____ School Year: _____
